Profile Summary

Product-oriented final-year engineering student with strong analytical and system-thinking skills, seeking to build a career in solar finance and product development. Experienced in designing structured workflows, understanding risk-aware processes, and coordinating with multiple stakeholders. Actively developing domain knowledge in solar lending models, EPC ecosystems, and renewable energy financing, with a strong interest in contributing to scalable and responsible lending solutions.

Education

Vellore Institute of Technology, Bhopal	Expected May 2026
<i>B.Tech – Computer Science Engineering (Cloud Computing & Automation)</i>	<i>CGPA: 7.98</i>
Shubham Raje Junior College, Maharashtra	2021
<i>Class XII (MSBSHSE)</i>	<i>88.8%</i>
All Saints High School (CBSE)	2019
<i>Class X</i>	<i>87.2%</i>

Core Skills (JD-Aligned)

- Product & Business Analysis , Market & Competitor Research, Risk & Credit Lifecycle Awareness, Process & Workflow Design, Stakeholder & Partner Coordination, Data Interpretation & Documentation, Clear Communication & Presentation

Technical (Supportive): Python, SQL, JavaScript, React.js, Node.js, MongoDB

Project Experience

AI-Based Documentation Platform

Product-Focused System Design Project

- Designed a platform that converts complex technical repositories into structured, business-ready documentation for non-technical stakeholders.
- Focused on understanding user needs and reducing information gaps through organized outputs and clear process flows.
- Demonstrated ability to translate complex systems into actionable insights relevant to product and finance roles.
- **Skills Applied:** Product thinking, structured analysis, documentation, stakeholder usability

Foodiolla – Order & Payment Management Platform

Process, Risk & Transaction Flow Exposure

- Built an end-to-end order and payment workflow simulating real-world transaction and process control environments.
- Implemented role-based access control and secure payment handling, strengthening understanding of risk and controls.
- Gained exposure to lifecycle-based workflows relevant to credit, repayment, and portfolio management concepts.
- **Skills Applied:** Process design, risk awareness, transaction logic, system thinking

Extracurricular & Leadership

Blockchain Club – VIT Bhopal

PR, Sponsorship & Event Marketing Team

- Led PR and outreach initiatives for technical and non-technical events, improving student participation through targeted promotion.
- Coordinated with sponsors and external partners, gaining hands-on experience in communication, negotiation, and relationship management.
- Assisted in planning and marketing events while aligning messaging with audience and partner expectations.

Certifications

- AWS Solutions Architect – Ethnus
- DevOps Fundamentals – IBM
